

NATIONALIST GOVERNMENT TO FLEE NANKING

SEES SENATE
REJECTION ON
HOUSING BILLSen. Myers Feels Proposed
Amendments Will Be
Beaten Quickly

WASHINGTON, April 21—(AP)— Senator Myers (D-Ohio) predicted today the senate will reject practically all amendments to the long range housing bill, including an explosive anti-segregation proposal.

Myers, the deputy Democratic leader, said he looks for the bill to be passed "substantially as it was approved by the banking committee."

The Pennsylvania lawmaker forecast that "only a few votes" would be cast for an amendment by Senators Bricker (R-Ohio) and Cain (R-Wash) which would prohibit discrimination on the basis of race, creed or color in the renting of public housing.

That controversial proposal touched off an argument in the senate yesterday and threw a monkey wrench into the Democratic leadership's plans to start voting on the 15 pending amendments.

Tied To Civil Rights

The debate in the senate of the proposal was tied into President Truman's civil rights program, calling for a series of non-discrimination laws. Nearly all congress members from the south are opposed to the program, but the platforms of both the Democratic and Republican parties endorse the idea.

Bricker shouted that "there is something wrong" with those platforms if Congress defeats his anti-segregation amendment.

"If we are for it (civil rights), let us be honest about it," Bricker demanded. "If we aren't for it, let's also be honest about it."

Bricker said: "If it kills the bill, well and good—then there is something wrong with the bill."

Bricker sharply assailed the whole public housing section of the bill. He said it provides for an "endless" program that just feeds on itself.

Senator Taft, Bricker's Republican colleague from Ohio, told the senate he was going to vote against the amendment because he could see no justification for it.

Taft, one of the sponsors of the housing bill, said there has been no discrimination in the renting of public housing in Ohio. He added that if anything, Negroes in that state have been given a preference.

Lisbon To Get
Parking Meters

LISBON, April 21—Village council voted Wednesday night at a special meeting to purchase parking meters from the Park-O-Meter McGee-Hale Co. of Oklahoma City, whose bid was determined as the best of seven opened April 12.

Council at that time, deferred awarding the contract.

The Park-O-Meter is an automatic meter, costing \$61.50 each installed. The contract calls for 150 meters.

Installation will begin within 15 days and the meters will be ready for use in 30 days. The meters will be placed on a nine month trial basis at a monthly rental of \$3 per meter, with the rental to apply on the purchase price.

British Cruiser Aids Stricken Warships on Yangtze

The 10,000-ton British cruiser HMS London, pictured above, rushed to the aid of two lighter British warships damaged by Red artillery fire from the north bank of the Yangtze River 80 miles east of Nanking. The London, with Vice Admiral A. C. G. Madden aboard, was enroute from Hong Kong to Shanghai on a courtesy visit, but sped instead to the scene of fighting between the British sloop Amethyst and the destroyer Consort and the Communist batteries ashore.

Our Time Is Your Time If
You Set Your Watch Sunday

By BOB DIXON

The time has come once again to remind all Salemites that at 2 a. m. Sunday the community will go on Daylight Saving time.

When that hour rolls around, you are to get out of bed and set your watch and clocks ahead one hour to conform with most of the state's communities. However, if you want to be sloppy about it and set the timepieces ahead when you retire, it's permissible.

Possibly, the latter course is advisable since the time change will cost you an hour's sleep Saturday night. Of course, you'll get it back the last Sunday in September, when we go back on Eastern Standard time. It all comes out even.

Anyhow, it won't get dark Sunday night until about 8:45 and later in the summer we'll have until 9:30 to play golf, spade gardens, sit in the backyard and save electricity.

The railroad schedule is moving to Daylight Time and so there will be no change in transportation. The Salem postoffice, too, will conform with the rest of the city and there will be no important change in the time of receipt and dispatch of mail.

Better change that watch over the weekend, though, since you'll be an hour late for work Monday if you don't. It is important to note that all bosses will definitely observe the new hours.

Acquit Woman In Ravenna
Who Killed Two Children

RAVENNA, April 21—(INS)—Mrs. Barbara Whitwell McVeigh, 30, of Geauga Lake, stood acquitted today of a charge that she drowned two small sons in a bathtub of scalding water in Nov. 1947.

A panel of three judges in Portage county common pleas court found the woman not guilty of first degree murder yesterday by reason of insanity at the time of the crime.

The three judges—Hugh Hewitt of Ashtabula county, Blake C. Cook of Portage county, and Lynn B. Griffith of Trumbull county—recommitted the woman to the Lima State hospital for the criminal insane and ordered her to remain there until she is "restored to health."

The trial opened yesterday and was unusual in that the county prosecutor agreed with the defense as to her guilt.

After the slaying of the two boys, Malcolm, 5, and David, two months, Mrs. McVeigh confessed to Sheriff George Shields. She related to him that the older child became frightened when he saw his mother drowning his brother and ran to the basement.

She confessed that she caught Malcolm and beat his head against a pillar in the basement before dragging him back to the bathtub, Sheriff Shields stated.

Mrs. McVeigh was committed to Lima after her indictment for first-degree murder in January, 1947. She was charged, because of her mother's influence.

Attorneys for the mother-in-law, Mrs. Lillian E. Hoffman of East Cleveland, said they would ask Judge Edward Blythin for a new trial. Her son Jerome P. Horton, 39, met the petite French girl in Paris in the spring of 1946 and they were married that July.

After they came to Cleveland in October, 1946, the couple went to live with his mother. There, the French bride testified, she developed tuberculosis. In February the couple took a furnished room, leaving Mrs. Hoffman's home, but a month later Horton abandoned her, his wife charged, because of his mother's influence.

Horton, a commercial artist, has filed for a divorce. Earlier, his wife came to petition for a divorce because she had not been a resident of Ohio for a year, filed for alimony. The alimony-divorce actions are pending.

We Stand Convicted

Whatever effect the testimony by prosecution wit-
nesses may have on the trial of Communists charged
with conspiracy to advocate over-thrown of the United
States government, it already has had an effect on
the public conscience.

We stand convicted of gross neglect of duty to
be eternally vigilant in protecting our liberty. The
government's witnesses in the Communist trial are
revealing that there always has been and still is an
active conspiracy to hurt the United States through
internal mischief.

Schemes and designs which seemed too fantastic
to be credible were not the wild imaginings of red-
baiters. Nor were they the stuff of which political
herrings are made. While it is to the credit of the
government that it can produce witnesses in 1949 to
tell some of the story of what went on, the fact re-
mains that it was going on during a period when the
government itself was refusing to be disturbed—the
highest level of government, moreover. Perhaps no
serious or permanent damage was done. The United
States obviously was strong enough to surmount the
effects of traitors moving freely among its people and
preaching treason. It survived, not because it was
aware of danger, but because those who personified
the danger had underrated the resistance of a free
people to the doctrines and designs of traitors.

Speaking of Bias and Prejudice

The chief justice of Ohio, Carl V. Weygandt, has
overruled two actions to bar Common Pleas Judge
James J. Connell from hearing contempt of court
cases on the grounds of bias and prejudice against the
defendants. The cases grew out of picketing at the
Fawick Airflex Corp. in a Cleveland suburb.

Chief Justice Weygandt has pointed out that the
defendants have full rights of appeal in the event
Judge Connell fails to give them an impartial hearing.
In effect, the chief justice has affirmed the
right of a judge to have strong opinions—as Judge
Connell obviously has—without the opinions affecting
his ability on the bench.

Like a great many citizens of the United States,
Judge Connell does not believe a labor union and its
sympathizers have any right to use violence and in-
timidation. He has made his position on that point
crystal-clear in his decisions. The strength of his
convictions has startled some pickets and their sym-
pathizers. It may have startled some of the politicians
who are taking the position that unions can do no
wrong. Judge Connell thinks they can and that when
they do they should be brought to terms. If that's
bias and prejudice, it has the merit at least of being
bias against hoodlumism and prejudice for equality
under the law.

Think Twice, Governor

The state of Illinois is having cut-offs. Its legis-
lature has passed a bill declaring that cats roaming off
their owners' property are a public nuisance. Their
capture by any citizen would be legalized, provided
it was painless. The purpose is to protect insect-
eating songbirds.

Behind the bill, of course, was a lobby—The Friends
of the Birds, Inc. But once the bill was passed and
given to Governor Adlai Stevenson for his signature,
another lobby went into action—friends of the cat—
uncorporated. The governor's statesmanship will
be tested.

Cats have scorned the barriers built against horses,
cows, cattle, pigs, goats, chickens and dogs. All of
these were permitted to roam at large at one time.
But like people they gradually lost their freedom of
movement. Only cats remained independent.

They recognize no man-made restraints. Like
Gandhi, they know the power of passive resistance.
And like the British, who never could understand
Gandhi, there are many Americans who can't under-
stand cats. The bill which Governor Stevenson must
sign or veto testifies to their inability to comprehend
that some living creatures cannot be deprived of their
freedom because it is the essence of their existence.

Think twice, governor. Those Illinois cats could be
dynamite.

Who's On First?

When they say baseball is America's national game,
that doesn't mean it just the way it sounds. Fewer
boys and young men play baseball than play basket-
ball and football. As an amateur sport it is so little
regarded that many high schools ignore it or slight
it.

But on a basis of popular interest, professional
baseball can claim the largest of all followings. Radio
has made it the preoccupation of millions, ranging
from kids who couldn't hit a bat to elderly females
who used to think baseball was too rough for their
attention.

This is a far greater phenomenon than the game
itself—that so many millions of people should have
become followers of a game which has relatively few
players. It suggests that the gnawing doubts of critics
about the potential effects of television may
not be groundless. In another 25 years, the whole
nation may be engrossed in a sport which is played
almost exclusively by professionals before select audi-
ences of sports writers and electronics engineers.

Stephen S. Wise

It will be acknowledged in every statement about
the death of Dr. Stephen S. Wise at the age of 75
that he was often a focal point of disagreement. But
it may also be acknowledged that those who dis-
agreed with him invariably respected Rabbi Wise for
his moral courage and Jewish integrity. That is
the measure of his status in the world he lived
in—the fact that he made no compromises
in the dictates of his own conscience.

He was a man who submitted himself to that kind
of leadership which is the most ardent. But the

who do have the great satisfaction of knowing they
earned respect not only for what they accomplished
but also for what they hoped to accomplish. Rabbi
Wise accomplished much. He hoped to accomplish
much more. At death he is honored for his hopes as
well as his deeds. Both were great.

The Stars Say

For Friday, April 21

By GENEVIEVE KEMBLE

DESPITE a state of stubborn opposition, stagnation
or frustration, with much obstruction of fervent
objectives or plans, a sudden and quite unforeseen event
or intervention is likely to give a definite spur to
lagging interests and fortunes.

Quick action in execution of some brilliant idea,
an inventive break or a dynamic determination to
remove obstacles or smash all blocks or interference
is forecast. Exceptional ability, ingenuity, innovation,
perhaps a unique discovery could attract public ap-
proval and support.

For the Birthday

Those whose birthday it may enjoy some sort
of unforeseen and unpredictable favor, approbation
or tangible assistance from influential sources, a
timely intervention in putting over a bright idea or
plan, an original or ingenious discovery, with out-of-
the-ordinary or routine techniques.

This may be a spectacular spurt of creative skill,
invention or novelty, attracting public interest and
possible acclaim. An enthusiastic and vigorous
launching of such projects or inventions could convert
stubborn obstacles to success, winning instant com-
punction or practical participation and resources.

A child born on this day may be expected to sweep
all before it in some brilliant coup, talent or dis-
covery, its originality and genius, including skills recog-
nized as outstanding among personal qualities of ob-
jects to succeed.

GUARDING YOUR HEALTH

Many Causes of Delirium

By HERMAN N. BUNDESEN, M. D.

Whenever, for any reason, the brain is deprived of its nutrition or its normal supply of blood, the mental confusion and excitement we know as delirium may result.

Since many different conditions can prevent the brain from receiving the nutrition and blood flow it must have to function properly, delirium has many causes.

Excessive amounts of alcohol, cer-

tain drugs, or infectious diseases

may all, on occasion, bring about a

delirious state. So may certain pa-

thological diseases, such as inflam-

mation of the liver, diabetes, heart and

thyroid gland diseases. Delirium is

a frequent accompaniment of uremia

or poisoning, a condition in which

the kidneys are unable to excrete

the waste products of the body.

Sometimes it is advisable to give

the patient a sedative or quieting

drug. The physician will decide just

which of the many available will

best serve in the particular instance.

The delirious patient should be

given a soft diet, and meals should

be small and frequent. Milk should

be given between meals. It is im-

portant that the patient receive

many vitamins, which may be in-

jected under the skin, or into a vein

if necessary.

Elderly patients who are delirious

may be given an injection, into a

vein, of a glucose or sugar solution

which is administered slowly over a

period of time.

Quiet is essential for the delirious

patient and he should be kept under

constant observation.

Pageant Highlights Presbyterian Meeting

An inspirational program was presented by Mrs. William D. King, who directed the pageant, "The Challenge of the Cross" Wednesday afternoon at the meeting of the Presbyterian Women's association.

As Evangel, Mrs. King sought recruits for the Heavenly Father. The disciples, Mrs. Vance McBane, Mrs. Lee Vincent, Mrs. Robert Groner, Mrs. Stanton Heck, Mrs. G. W. Smith and Mrs. R. R. Woods, who wanted crosses to suit them, representing selfishness, symbolism, guilt, conceit, sincerity, finally accepted the crosses of this life.

Music was by the women's choir led by Mrs. Hilles Linton, with piano accompaniment by Mrs. Gertrude Stewart.

Mrs. Harry Snyder used "Where Love Is Unselfishness Will Follow" for her worship topic.

Seventy-five were present at this dinner meeting.

The Mother-Daughter party will be an event of May 5 in the chapel with Mrs. R. J. Kulow of Youngstown, last year's speaker, here in a return engagement. Her topic is "Bible Homes." Special music will be sung by members of the Chancel choir. Refreshments will be served. Tickets may be secured from committee chairmen.

Announcement was made of the Scandinavian folk concert to be presented by Miss Agnes Sundgren on Friday, April 29, in the chapel.

Mrs. J. W. Asty gave the house committee report, Mrs. J. C. Potter the fellowship report.

The Mother-Daughter party Thursday, May 5, is the next meeting of the association.

Mrs. Herbert Lynch of Piqua, the former Meta McCave of Salem, who has been seriously ill in Memorial hospital there, is reported to be slightly improved.

The condition of Miss Lois O'Connell of San Francisco, Calif., who underwent a major operation in a hospital there, is reported favorable. She is the daughter of Mr. and Mrs. Charles O'Connell of Cleveland.

Mr. and Mrs. J. S. Cutler and son, John, student at Hiram college, and daughter, Joan, student at Milwaukee State Teachers college, and their other son and daughter, Jim and Jane, and William Speer and Peggy Frazier, students at the University of Milwaukee, are guests of Mrs. Cutler's parents, Mr. and Mrs. E. J. Justice of R. D. Canfield, John returned to Hiram Tuesday.

Teachers Group Names Officers For New Year

Officers were named for the coming year; plans were made for the Founder's day luncheon May 7 and for the 10th birthday celebration May 26 when members of Alpha Iota chapter, Delta Kappa Gamma society, National Teachers sorority, met Wednesday evening at Barnett's for a dinner meeting.

Mrs. Harold Zealley, guest speaker, gave an inspirational talk on "Today."

Officers are:

President, Mrs. Estelle Elton of Wellsville; first vice president, Dorothy Cameron of Lisbon; second vice president, Dorothy Smith of Salem; recording secretary, Mrs. Everett Weingart of Columbiana; corresponding secretary, Adeline Blake of East Liverpool; treasurer, Brenda Parker of Chester, W. Va.; parliamentarian, Sadie Van Fossen.

The Founder's day luncheon will be in Steubenville, while the anniversary dinner will be at the home of Miss Blak in East Liverpool.

Sara Heddleston, Lillian Schroeder, Mrs. Helen Stevenson and Miss Van Fossen make up the committee, which will arrange the anniversary program.

Doris Tetlow and Mrs. William Baker composed the program committee for last night.

Mrs. Montgomery and Thelma Thomas were in charge of dinner arrangements.

Anne Montgomery, Junior High student, painted the attractive place cards which marked the 24 places. They were designs of flowers in multi-colors.

Those in attendance were from Wellsville, East Liverpool, Lisbon and Salem.

The future bride graduated from the New Waterford High school and is employed in the A&P store, Columbiana.

Mr. Steitz is employed by the Deming Co. During the war he was in the army for four years.

Columbiana Council Fixes Zones For Parking Meters

COLUMBIANA, April 21—Parking meter zones are defined in an ordinance passed under a suspension of the rules by village council Monday evening, but the entire town will not be metered with the installation of meters, provision being made for their extension if desired.

The zones are: From Vine alley, the first alley north of Main st. to Railroad st.; from the public square west on Park ave. to Vine st.; from S. Main st. east on Pittsburgh st. to S. Elm st.; from S. Main st. west on Union st. to the first alley.

The parking limit will be two hours. One penny will pay for 12 minutes, with various coin combinations up to 10 cents for the two-hour limit. The penalty for exceeding the limit will be a maximum fine of \$25 and costs, and for using slugs, damaging or destroying meters, \$100 and costs.

There were four bidders for the automatic type of meter decided upon; three single meters and one double meter. Prices for meter facilities for each car ranged from about \$48 to \$68. About 100 meters will be installed, to be paid for out of the receipts.

Action may be deferred until the next regular meeting of council Tuesday evening, May 3.

Chamber Makes Requests

President George Seeger and Maurice Lehman of the Chamber of Commerce presented a proposal that all streets having two names for different sections should be under one name to avoid confusion. They were informed that petitions from owners of abutting property will be necessary.

The chamber is going to have prepared a new map of the municipality.

The two commerce representatives also recommended suitable recog-

VOICE PRAISES
FOR RABBI WISE

NEW YORK, April 21—(AP)—New words of tribute to Dr. Stephen S. Wise were voiced today as the noted rabbi's body lay in state for the second day at his free synagogue.

Funeral services will be tomorrow at Carnegie hall, where thousands are expected to pay final respects to the world-famed orator, Zionist and liberal crusader.

In a message to Wise's family, President Truman said "a valiant fighter in the cause of righteousness and good will among men is lost. To you and to all who mourn with you, I offer this assurance of deepest sympathy."

Dr. Wise, 73, president of the American Jewish Congress and the World Jewish Congress, died Tuesday.

More than 1,000 mourners viewed his body, which lay in front of the pulpit from which he delivered sermons for 42 years.

Gov. Thomas E. Dewey, expressing his sympathy, said America has lost "a leader who constantly fought on behalf of freedom-loving peoples to obtain the priceless heritage of human rights."

Sen. Robert F. Wagner (D-N.Y.) said Dr. Wise was "ever-striving to bring to full realization the American dream of democracy."

City police and state troopers will provide an escort to the Westchester Hills cemetery of the free synagogue, Hastings, N. Y., where Dr. Wise will be buried.

Boy Scout News

County Dinner

Reservations for 125 persons have been received for the fellowship dinner of the Columbian County Council of Boy Scouts.

This announcement was made by Paul T. Gerrard, chairman of the dinner committee, who said that the response has been better than expected for this annual event, to be held in Lisbon, Thursday, April 28.

Troop 18 of Columbian was the first to file, with 14 reservations. Troop 51 of Millport was second with 14 and New Garden Troop 52, with 10. Troop 20, Wellsville, a new troop sponsored by the Second Presbyterian church there, has bought 12 tickets.

A large number of units have bought 5, 6 or 7 tickets, and many troops and Cub Packs are arranging to do honor to the Scoutmaster or "Cubmaster" by getting tickets for him and his wife.

More than 45 veteran awards will be presented at the dinner, in recognition of years of volunteer service to Scouting, two training awards will be presented, and one special award.

Speaker will be Joseph N. Thomas, assistant coordinator of Volunteer Training for the Boy Scouts of America.

GRANGES

Perry

Mrs. Perry Hilliard, Mrs. Walter Hilliard and Miss Clara Stewart were added to the social committee of Perry grange at a meeting Wednesday evening in the hall.

Mr. and Mrs. Edward Miller of the Goshen rd. showed colored slides of pictures taken on their western trip.

The program opened with group singing. Mrs. Laura Bates gave quotations from poems and the members guessed the names of the poets.

Lunch was served by the social committee.

Plans were made for a social May 7, which will feature square dances. The regular meeting will be May 4.

The names of the states of the Union come from seven different languages: American Indian, Dutch, English, French, Greek, Latin, and Spanish.

Customers' Corner

What can we do to make your A&P store a better place to shop? A few months ago we ran an ad asking our customers to write us their answers to this question. The thousands of answers that came in were very helpful and have given us a blueprint for our activities during the coming year. We want you all to know that we appreciate your suggestions and we are striving to give you the things you asked for.

But if we are to keep on doing the best job for our customers we must stay up-to-date on your wishes. The thousands of A&P employees from coast to coast hope that you will continue to give us your suggestions and criticisms. High School Chorus
To Entertain Pupils

The High school advanced chorus will perform before two Junior High audiences on April 26 and 27.

Seventh graders will hear one presentation and eighth grade pupils will form the audience for the second program, according to Thomas C. Cruthers, chorus director.

The series of programs were start-

ed two years ago to display to this group more personal and the closer operations and procedures of high school choruses.

On the program, which will be repeated for both performances, are: "One World" by O'Hara; "Holy, Holy, Holy," with a Fred Waring arrangement by Dykes; "Meadowlands," Knepper-Wilhousky; "Russia Picnic" by Enders and "With a Hey and Ho and Ho, Ho, Ho," by Mizzy-Curtis-Wilson. The chorus will close with the "Battle Hymn of the Republic" as arranged by Waring's Ringwald.

Eleanora Buta will offer the solo "Holy, Holy, Holy" and James Coscarelli will do the solo in "Battle Hymn of the Republic." Ben Bailey is the chorus accompanist.

YOUTH, 19, HELD IN
DETROIT KILLING

DETROIT, April 21—Michigan state police today arrested 19-year-old Detroit Ted Hilles in connection with the slaying of six-year-old George Coates.

The troopers said Hilles confessed after being arrested at Pinkney, near Brighton, Michigan.

The naked and bruised body of the boy was found on an ash heap behind a furnace in a hotel garage early today.

The evidence pointed to a fiend's work, police said.

A strip of cloth was twisted around the boy's neck. His head and shoulders were charred, and the face and neck was slashed.

Police found the body after hours of search for George, who had been reported missing by his parents at 8 p.m. yesterday.

The hotel (Murray Hall) is a modest establishment in the vicinity of Wayne university.

Detective Inspector George Kimball said his men were seeking in particular a 19-year-old youth whose companionship had been forbidden to George.

The boy's mother, Aurie, said she had last seen her son in the Counter back yard with the youth.

Mrs. Coates said she was concerned but felt that "what they were doing was harmless enough so I didn't say anything."

"But when George didn't come in to dinner," she said, "I started to hunt for him. Then I called police."

The youth in question has been a resident at the hotel. Police said he was reported to have checked out yesterday.

OBITUARY

GEORGE A. CAREY

George A. Carey, native of Salem, died suddenly Wednesday in Havana, Cuba, on his way to the United States. Mrs. R. B. Carey of E. Third st., was advised last night.

A son of Mr. and Mrs. Charles M. Carey, he was born in Salem. A retired employee of the Bell Telephone Co., he lived in Philadelphia for many years. After his retirement he lived in Miami, Fla., and his present home was Isle of Pine, south of Cuba.

He was a brother of Don C. Carey of Warren, and the late R. B. Carey of Salem, who died last June. His other brother was the late Charles H. Carey, for whom the local American Legion post was named.

Funeral arrangements are being completed.

WIEGEL FUNERAL

LISBON, April 21—Services for Mrs. Eva May Wiegel, who died here Wednesday in the home of her sister, Mrs. Dory Glatz, 229 W. Lincoln way, will be held from the Eells-Leggett funeral home at 2 p.m. Friday. Burial will be in the cemetery at Wellsville.

Friends may call at the funeral home this evening.

Pre-Trial Hearings
On Jury Cases Begun

LISBON, April 21—Judge Joel H. Sharp on Wednesday began hearings in pre-trial conferences in pending jury cases on which an assignment of 88 cases has been prepared.

Pre-trial conferences of attorneys and clients in court cases will begin on May 4 when an assignment of 83 cases will be heard.

Many pending court actions are settled through the process of the half-hour pre-trial conferences, clearing the court dockets and bringing the number of cases to be tried to a minimum through the settlements achieved at the private conferences conducted in the private chambers.

Hearings today included pre-trials of two actions against the city of East Liverpool, the first a \$10,000 damage action filed by Anna Friedman seeking damages for injuries which it is alleged permanently disabled her, sustained when she stepped into a hole in the sidewalk at 217-218 South Market st. in that city.

The other action was brought by Clarence and Theresa Ammon for damages to their property when a water main on Trenton ave. burst last May 7, flooding their property with water and debris and cracking concrete footers for a new dwelling. The petition alleges damages in the sum of \$250.

Save One of Two Men In Cave-In

EAST LIVERPOOL, April 21—A part-time miner was killed and the operator of the small pit managed to work himself free after they were caught under a roof fall in a neighborhood coal mine at nearby Pughtown, W. Va.

Twenty-five men of the rural community found Homer Rickard, 51, suffocated under tons of earth when they reached him after three hours of frantic digging in the hillside mine about 9 p. m. Tuesday.

Floyd Thomas, 58, who operates the mine under lease, escaped bruised but unharmed and rounded up a crew to make the rescue.

The neighbors had Rickard freed to his waist at one time but more of the roof caved in and buried the victim again.

The accident occurred about 75 feet inside the single entry way of the mine, located on the Hancock County (W. Va.) poor farm about eight miles south of here.

Rickard was employed as a potter at Chester but had been digging coal during lay-offs. Acting Coronet O. C. Reynolds will hold an inquest tonight.

WASHINGTONVILLE

The Community Sunrise prayer meeting held at the Methodist church was well attended. Following the service the young people of the church enjoyed an Easter breakfast, which was held in the basement of the church.

Friday evening at 8 o'clock there will be a missionary service at the church, sponsored by the Women's society. Rev. Marshall Cavit, a

missionary to Bolivia, will speak and show pictures.

Both churches were well attended Sunday morning. Baptism and reception of new members was also observed in the churches.

Miss Joyce Ann Linn, daughter of Mr. and Mrs. Merle Linn, had the misfortune to fall and break a fruit jar Saturday evening, cutting her hand. Several stitches were required to close the cut.

Robert Baker of Atlanta, Ga., was an Easter weekend visitor with his parents, Mr. and Mrs. Clarence Baker.

Mr. and Mrs. Ludwig Onigekit of Cleveland and Miss Amy King of Columbus were Sunday guests with their parents, Mr. and Mrs. George King.

Mr. and Mrs. William Harrold of Leetonia were Sunday guests in the home of their son and family, Mr. and Mrs. Don Harrold.

Mr. and Mrs. Frank Stecker of Steubenville were recent callers in the home of his brother, Mr. and Mrs. Jacob Stecker.

Miss Mary O'Neill of Salem was a Sunday guest in the home of her sister, Mrs. Allan Stirling.

Mr. and Mrs. John England were Easter weekend visitors in the home

of her parents, Mr. and Mrs. Dan Price of Everett, Pa. They were accompanied home by Mr. England's father.

Mr. and Mrs. Jeff DeLauer of Willsburg, O., have returned home after spending the past week with their daughter, Rosemary, to Julius Santarelli, son of Mr. and Mrs. Louis Santarelli, S. Broadway, Salem.

Miss Mancuso, a graduate of Leetonia High School, is employed at the Roos drug store.

Mr. Santarelli graduated from Sa-

lem High school and served in the Army during World War II. He is employed by Mullins Mfg. Corp.

The wedding will take place in September.

Midway grange will hold its regular meeting at 8:30 Friday evening. The Juvenile grange will hold a "White Elephant" sale and desire all grangers to bring their "White

Elephants" wrapped and ready for auction. The ladies of the grange are asked to bring pies. The committee in charge are Mr. and Mrs. T. B. Cope, Mr. and Mrs. C. Fred Sitter and Mr. and Mrs. Oren Defenbaugh.

Ruth Bible class of the Methodist church was entertained at the home of Mrs. Howard Nahar, Tuesday evening, with Mrs. Sadie Johnson and

Mrs. James Baker associate hostesses.

Past Matrons club of Leetonia chapter No. 253, O.E.S., met at the home of Mrs. Hugh Gleckler, Wednesday evening with Mrs. David Peppel and Mrs. Ethel Patterson as associate hostesses.

The Try-Try-Again 4-H club will meet at St. Jacob's Reformed church from 7 to 9 tonight. All

members are asked to attend as new officers will be elected.

TREES TO SCHOOLS FOR ARBOR DAY

For the third year the Ohio Reclamation Association, largest tree planting organization in the state, is mailing seedling trees to the schools of the coal areas of Ohio as a part of their Plant-A-Tree plan for the observance of Arbor Day. John Crowl, field director of the Association, is showing Mrs. Dorothy Kovacik and Miss Margaret Raber, both of Cadiz, how to wrap the roots in sphagnum moss and oiled paper, to insure the trees reaching the schools in good condition. The Association is an organization of strip mine operators devoted primarily to returning stripped over land to productivity.

Army Has Radar For Storm Detection

WASHINGTON, April 21.—(AP)—The Army has developed a special radar set for detecting storms.

It was described today by scientists of the Army's Evans Engineering laboratories at Fort Monmouth, N. J.—the same research center that has successfully bounced radar signals off the moon.

Researcher Lester A. Zurich announced the development to a meeting of the American Geophysical union, and the American Meteorological society. An associate of Zurich's told a reporter:

"It is more wonderful than conventional radar sets which have hitherto been used in storm detection. We can now see parts of a storm we couldn't see before. We can now see the entire structure of the storm and are better able to plot its progress."

He said the power of the set and its frequency are Army secrets, but he declared the power exceeds the 200,000-watt peak of conventional radar sets.

Zurich said the set can detect thunderstorms "to the limit of the horizon" when it is properly placed.

Retail Pork, Lamb Prices Edging Downward This Week

By the Associated Press

Retail pork, lamb and veal prices started edging downward this week. Nearly all vegetables were lower. Dairy products were about unchanged.

Consumer meat buying at Easter time was "disappointing" in several cities, trade spokesmen said. When sellers failed to come up to expectations, many sellers were left with larger than usual stocks on hand, and wholesale buying has dragged even.

Pork and lamb were affected most. Market spokesmen said many retailers were expected to feature pork this weekend, and that pork prices probably would decline even further next week. Hog livestock prices at Chicago this week reached the lowest level since October of 1946.

Increasing receipts of spring lambs were putting competitive pressure on the winter crop, forcing prices slightly lower. And veal prices eased in what an agriculture department source described as a delayed reaction to the arrival of spring veal.

"Veal should have started downward a couple of weeks ago when the new supplies began reaching good volume," he said.

Beef also was headed downward at wholesale early this week but the reductions were not reflected at the retail level today in most markets. Choice beef cuts were still a penny or two a pound higher than a week ago in some cities.

The March food index, based on preliminary figures, was 207.1 as against an all-time high of 224.6 last July. Base date of the series is January, 1939, as 100.

From other sources came indications, however, that food prices had begun to ease slightly from recent levels. The Dun & Bradstreet wholesale food price index, for example, declined this week to \$5.68 from

14.6.

Johnny Groth Hottest Rookie In Major Loop

Three Homers, Five Hits,
Seven Runs Batted Across
Is Fair Mark For 2 Tilts

By JACK HAND

(Associated Press Sports Writer)
Johnny Groth looks like the hottest rookie to hit the majors since Joe DiMaggio, Ted Williams and Stan Musial.

Sure, it's too early to tell. Two days don't make a season or a career. But what a two days this 22-year-old Detroit freshman had.

Three home runs, five hits and seven runs batted in. That's a flash showing that needs take a back seat to nobody.

The \$35,000 the Tigers shelled out as a bonus to Johnny when he got out of the Navy at Great Lakes may have been their best investment. At least, one \$32,000 product, Dick Wakefield, is riding the bench these days.

...exceeded a chorus of hur-

rahs Tuesday with two homers off courage's Al Geltel. That over- shadowed Hal Newhouser's fine three-hitter.

Yesterday he almost blotted out the "Tucks" four-hitter that gave Detroit a 5-2 edge over the White Sox.

Pandy Gumpert, the ex-Yankee, held a 2-1 lead in the last of the eighth when he lost his stuff. A walk to Aaron Robinson loaded the bases, bringing a conference between Manager Jack Onslow and his pitcher. Onslow decided to stick with Gumpert. Seconds later he wished he had another chance.

Gumpert threw two wide pitches to Groth and then got one over.

Groth hit it 381 feet into the left centerfield stands to clean the bases. Earlier Groth drove in a run with a double.

An old-timer did the honors for the New York Yankees in their 3-0 second straight win over Washington. Tommy Henrich, one of the few genuine Yanks still able to play, snapped a scoreless duel between Vic Raschi and Paul Calvert with a fourth-inning homer. It was his second of the year, his first accounting for the Yanks' opening day success.

Everybody said the Boston Red Sox couldn't possibly get away as

slowly as last season, but they're giving it a good try. Joe McCarthy's Sox were beaten by the Philadelphia A's for the second straight day, 3-2 in 10 innings.

Cleveland, although disturbed about Bob Feller's shoulder trouble, lured out three pitchers in

thumping the St. Louis Browns, 7-3.

...the first victory for the World Champs with Bob Lemon, a 20-game winner '48, going all the way despite homers by Dick Karkos and Rookie Jack Graham. Karl Drews as the loser.

Fuddin' Head Jones, the Philadelphia Phillies rookie hot shot, tied a modern major league record with four doubles, but they couldn't keep the Phils from losing to the Boston Braves, 6-5. Bill Nicholson of the Phils and Earl Torgeson of the Braves homered in a free-hitting contest that saw Reliever Nels Potter take his second win of the season. Jim Konstanty, the Phils' new wiper-upper, lost.

The speedy Brooklyn Dodgers walked to victory against the New York Giants, 6-2. Loser Sheldon Jones gave only one hit before he was replaced in the fourth but he walked seven and wild pitched twice. Despite a home run ball to Sid Gordon, Ralph Branca was in charge all the way, scattering four Giant hits.

Top National league pitching effort came from Chicago's Bob Rush, the 23-year-old sophomore, who shut out Pittsburgh, 4-0. Murry Dickson, the ex-Cardinal whose return to the Pirates prompted such an uproar from Manager Eddie Dyer

SWEDISH STAR WINS MARATHON CHAMPIONSHIP

Does 26-Mile Jaunt In Two Hours, 31 Minutes; 4th Year Foreigner Wins

BOSTON, April 21—(AP)—For the fourth straight year a foreign star has won the famed Boston A. Marathon—smiling Karl Gost, Leaderless, the 31-year-old Swedish champion.

The smooth-operating Swede ran 142 strong rivals ragged Tuesday while completing the 26 miles—385 yards course from Hopkinton to Boston in 2 hours, 31 minutes, 50.8 seconds.

By some doing, he found himself on the Unicorn club's victory rolls with such recent winners as Gerry Cote of St. Hyacinthe, Que., Yun Bok of Korea, and Stylianos Kyriakides of Greece.

The only other former winner in the starting field of 142, the 61-year-old Clarence Demar of Boston, who

Kenny O'Connell, son of Mr. and Mrs. Charles O'Connell of Cleveland st., was heralded as making "the finest showing among the absolutely unheralded competitors" in the Boston A. A. Marathon Tuesday.

O'Connell, who competed last year and finished dead last in the field, was 13th in the 26 plus mile event Tuesday. There were 142 entrants in the field.

O'Connell had worked hard in preparation for the big race. He is a former Salem High track star and now is a member of the Western Reserve university track team. He is a Senior at Reserve.

has led the pack home seven times since 1911, finished 49th in 3:28:42.

Leaderless, through interpreters, said he had hopes of erasing Soh's course record of 2:25:39 until he hit the long stretch of Newton Hills.

"It was hot and I was unable to breath properly taking the hills," he explained, "and they tired me out. But I am very happy I won and I know my friends in Sweden are happy too. I hope I can come back here and run again."

COMMUNISTS OPEN DRIVE TO CONTROL JAP COAL MINERS

By TOM LAMBERT
TOKYO, April 21.—(AP)—The Communists have launched a drive to take over the 460,000 organized coal miners in Japan.

General MacArthur's occupation labor advisers say the move is following the classic pattern of Red infiltration. They admit it is well planned and timely, but they are not convinced it will be successful.

This is how the Communist campaign developed:

In 1947, Japan had 360,000 coal diggers. They all belonged to the National Council of Coal Mine Workers unions. It was a federation rather than a union.

The council negotiated the first postwar contract with coal operators. Then internal troubles set in. The federation collapsed.

By the start of 1948, two miners' unions had emerged from the old council. Pro-Communist Zensekitan had 160,000 members. Anti-Communist Tanro had 200,000.

Almost immediately Zensekitan began talking "united front" and "merger" to the anti-Communist group. Tanro resisted.

The Communists kept up the pressure. Finally, Tanro agreed to a joint committee to negotiate a 1948-49 wage contract.

Two months ago Zensekitan came up with a new proposition. It would dissolve itself and its members would join Tanro on Tanro's terms.

Tanro replied it would accept Zensekitan members—on these conditions: The Red-led union's members must come in at the local level and their entrance into Tanro must be approved by Tanro locals; Zensekitan locals must accept the Tanro constitution.

The pro-Communists leaped at the chance. They dissolved Zensekitan down to a local basis. Individuals have begun joining Tanro.

This comes at a time when a joint Tanro-Zensekitan committee is negotiating a new contract with coal operators.

The operators—facing a reduced government subsidy for the coming year—probably will not be able to meet the miners' demands for more pay.

This could give the Communists their opening.

No one would be surprised to see the Zensekitan group desert the joint committee if it becomes apparent the miners' demands cannot be achieved.

Then the Communists would be able to say Tanro leaders were unable to do anything for the miners and should be replaced.

In any election, the tightly controlled Zensekitan members could be counted upon to vote for Communists. There would be a lot of others who would vote with them to protest Tanro's failure at the bargaining table.

That could do it. The Reds would

have control of all organized miners.

DESERTING REDS ARE PROBLEM NOW

**Mystery Surrounds What
Is To Be Done With
Escaped Russians**

By EDWARD V. ROBERTS
WASHINGTON—(UP)—Mystery today surrounded American plans for the future of four Russians—three of them airmen—who fled from the Soviet Union and surrendered to U. S. military authorities last fall.

Two who made their way to Japan—one by plane and one by raft—will be resettled "outside of Japan, outside of the United States and outside of Russia," according to the Army.

The other pair, who flew a Soviet air force plane from the Ukraine to the U. S. zone of Australia in October, are in New York in nominal custody of what the State department calls "other agencies." They were brought to this country by the department's Voice of America, but the Voice ceased to be responsible for them Feb. 28.

The State department spokesman

would say only "they were turned over to other agencies."

The Russians are:

Innokenty Zyrjanov, 24, former Red army soldier, picked up by Japanese fishermen Sept. 21 from a six-foot raft in sub-arctic waters north of Japan. He said he had left Soviet Kurile island 18 hours earlier and had to fight off seals during his entire "voyage."

Sgt. Vladimir Barashkov, 23, who crash-landed a Red air force plane near Hkakido, Japan, Nov. 10, and asked to be taken to U. S. authorities.

Liked Program

Lts. Peter Pirogov and Anatol Barsov, who landed near Linz, Austria, last October and announced that the Voice of America had convinced them that the American way was best.

After they lauded a Voice broadcast on Virginia, Pirogov and Barsov were brought to the U. S. for a tour of the Old Dominion state by the Virginia Chamber of Commerce in early February. After the Virginia tour the State department assumed responsibility for them.

Pirogov and Barsov both expressed a wish to become U. S. citizens, although technically they are here on visitor's permits good for three months. The State department said it did not know whether the permits would be extended.

An immigration service spokesman said that ordinarily holders of visitors permits would be deported when the permits expired, but that Pirogov and Barsov were "State department protégés."

The fate of Pirogov and Barsov may rest with a bill before congress which would authorize the central intelligence agency to admit 100 aliens annually for intelligence purposes, without regard to quota. The bill passed the house but has been stymied in the senate by repeated objections of Sen. William Langer (R.) of North Dakota.

Americans Drinking More Coffee, Less Tea

WASHINGTON, April 21—(AP)—Americans are drinking more and more coffee, less and less tea.

The 38-year trend was re-affirmed by a rise in the per-person consumption to 19.04 pounds in 1948, commerce department reported today.

That gain reversed a slight decline in 1947 to 17.8 pounds and pushed average consumption near the all-time high of 19.4 pounds in 1946. Americans have almost doubled their consumption of coffee since 1911, when they averaged 9.29 pounds.

With tea, things went the other way. Average consumption has dropped steadily since 1911, when it was 1.04 pounds per person, to slightly over a half-pound last year.

The U. S. imported 2,770,558,000 pounds of coffee last year, a record high and almost a billion pounds above the average in prewar 1935-39. Tea imports totaled 91,394,003 pounds.

Boyle's COLUMN

BY HAL BOYLE

NEW YORK—(AP)—Is television any more than keeping your mouth a-wide and your eyes a-gleam?

I don't know for sure except I've got hotter and the questions come faster and finally you wind up trying to defend this idea:

Just how to talk to the rest of you who haven't had this adventure I'm not sure. After all, you don't know, do you?

In other words, life has passed you by. And I like a good fellow, want to tell you what it's like.

I would say there are two ways to meet television—male and female. I am male. That is the downstairs technique. You sit there on a couch until the program starts.

Oregon's Crater Lake was discovered in 1853.

AH, BUT IF YOU are female! That is a different matter. That is the technique above. The lady goes upstairs and gets herself overhauled—as if a simple thing like that would surprise you when she came back down.

But it does surprise you. If it doesn't—you are no gentleman at all. It is like little girls running up the steps and playing mamma red Indian. When the girls come happily down, you just have to mention that Miami sunburn on their faces.

Of course the selfish male—and what male isn't selfish?—may wonder why they don't bother to put an indoor tan on his face. The answer is very simple. Who cares about him anyway?

At the present stage of television the only people who take care to see that they look right on television are those who earn their daily bread that way. And guest ladies. You know guest ladies always want things done right.

And guest men? Well, I was a guest man. There I was—and what was I to say?

They don't tell you that. All of a sudden the lights come on. The lights really come on under television. They come on fast and hard.

AND ALL OF A moment there you are with two or three cameras pointed at you waiting for you to say something important, and all you can think is "what will posterity think?"

And posterity isn't even on the program—that is one thing that isn't scheduled by television yet.

Well, you are between two girls and you are supposed to be

Predicts New Farm Program By 1950

WASHINGTON, April 21—(AP)—

Chairman Cooey (D-NC) of the house agriculture committee predicted today congress will write a new farm program—so take effect in 1950.

He told a reporter he expects this new program to:

1. Embody "perhaps some but not all" of the Truman administration's proposals for a program intended, through government payments, to give farmers good income and consumers cheap food.

2. Scrap the "Aiken bill" passed by the Republican-controlled 80th congress. This law in 1950, unless changed, would abandon rigid 90 per cent of parity price supports for basic crops and substitute a flexible 60 to 90 per cent support system.

Parity is a price calculated to

give the farmer a return on the things he sells in fair relationship to the prices of things he has to buy.

Cooey, foe of the flexible support idea, said: "None of us want this Aiken bill hanging around our necks in 1950. It has no friends in our committee, not even among Republicans. We are going to get out some kind of a new farm bill."

The principal virtue of the administration's new program, he observed, is that it abandons the flexible support idea." He said he is "inclined to look with favor" on some of the administration proposals, particularly its suggestions for getting "fair prices" for farmers.

But the administration has a big selling job to do, he remarked, if it

hopes to get its whole program accepted.

Truck Makes Hole

NORWALK, April 21—There was a 23-foot hole gaping in the old grange hall at nearby Fitchville today. A steel-hauling truck driven by Hollie Hill, Jr., 22, of Akron rammed the building yesterday. Hill escaped with bruises.

The newest contribution to the mechanization of cotton production is a cotton-chopping machine that uses flame instead of the steel blades of hand-held hoes, to make gaps in rows of young cotton plants, thus enabling the survivors to bush out and produce more heavily.

The Nation Today

By JAMES MARLOW

WASHINGTON — (AP) — There are rumors here that Russia is getting ready to lift the Berlin blockade.

They're starting at a pretty important time, as this story will show.

This is the setting: The Russians, Americans, British and French occupy four sectors of Berlin, just as they hold four zones of Germany.

The four wartime Allies agreed on that division when Germany surrendered. But Berlin is entirely within the Russian zone.

So the other three nations had to send supplies overland through the Russian zone to their Berlin sectors.

About a year ago Russia blocked all land approaches from the west to Berlin.

SINCE THEN this country has had to send supplies in by plane—the airlift.

This has been pretty awkward for the Americans, British and French. But it's been awkward for the Russians, too.

Because of their own blockade, they've shut themselves off from the industrial supplies they've needed from the American, British and French zones of Germany.

Lifting the blockade would let those supplies in. That might be one reason for lifting it. Another might be a real desire to ease the east-west tension, for Russia hasn't been winning the cold war.

Any other reasons? Several, maybe. For instance, throwing a monkey wrench into the plans of the United States, Britain and France to set up a new German government in their western zones.

In the first place, the Russians and her three former Allies have

never reached any kind of peace settlement on Germany.

The western powers have refused to talk with Russia about a settlement until the blockade is lifted.

Meanwhile, they've gone ahead with plans, and hopes, for setting up the German government in their zones. This would be a western German government, separate from whatever was done in the Russian zone.

The Russians haven't liked the idea and talked of setting up a different German government in their zone.

If they lifted the blockade and got the peace talks going, this might cause a long delay in setting up the western government.

AND THE DELAY might have an irritating effect on the Germans who have been without any government of their own since the war.

But Russia might have something else in mind, such as throwing a harpoon into the Atlantic pact and the Marshall plan.

Germany hasn't yet this year tackled the problem of actually voting money for the Marshall plan or money for arms under the Atlantic pact.

The Marshall plan's purpose is to help the western European countries get back on their feet and stand as a wall against Communism.

And under the Atlantic pact we're supposed to send arms to those democracies so they'll have confidence they can block any move by Russia.

But if, through lifting of the Berlin blockade, congress thought the tension and danger in Europe was easing, then—

What a cut in the Marshall plan might do to the economic recovery of our Allies and what withholding arms might do to their confidence in our friendship, is something that can't be foretold.

But any peaceful move by Russia, such as lifting the blockade, doesn't mean Russia has lost a battle or retreated a step. It might mean only that she is temporarily sidestepping.

Select Jury

CARROLLTON, April 21—(AP)—A regular and a special panel totaling 125 names were exhausted before a jury was selected yesterday to try Andrew Kertes, 26, for first degree murder.

Kertes is accused of shooting Harry Berlin, 54, in a holdup last Aug. 3.

From the famous pitch lake of Trinidad, off the coast of Venezuela, millions of tons of asphalt have been taken, yet no impression appears to have been made on the contents. Pressure from below forces new supplies of pitch to the surface to form the seemingly inexhaustible reservoir.

Northwest Flood Menace Lessened

SPOKANE, Wash. — (UP)—The possibility of another disastrous flood in the Pacific Northwest this spring has been greatly exaggerated, latest weather bureau figures reveal.

In a summary of water supply forecasts for the West Coast, the weather bureau said "undue emphasis has been placed on the heavy accumulation of snow in parts of the Columbia Basin."

The weather bureau recognizes the heavy December snowfall has created a serious winter flood hazard along the Cascade range.

"But it is still rather remote that flows along the main Columbia river will approach those experienced last year," the water supply report said.

Weather bureau officials are quick to point out, however, that at this time last year, no one was predicting the most devastating flood in the history of the Pacific Northwest.

1948 Flood Explained

Robert B. McComb, chief forecaster of the Spokane weather bureau, suggested two reasons for the unexpectedness of last year's flood.

"Heavy snows that piled up in the mountains did not come until May," McComb said. "There was no gradual run-off of melting snows that would have occurred if the snowfall had been spread over several months."

McComb added that another reason for last year's unpredicted

flood was the unusually late spring. "Cold weather kept snows from melting until late in May. Then overnight the sun came forth and melting snows surged down mountain streams and overflowed the Columbia river tributaries," the forecaster explained.

Stassen Clears His Aid Views

PHILADELPHIA, April 21—(AP)—Harold E. Stassen called today for a "MacArthur plan" in Asia to match the Marshall plan in Europe.

The former governor of Minnesota, now president of the University of Pennsylvania, set forth his plan in a letter to The Evening Bulletin.

He said he wants to make clear what his speech at Massachusetts Institute of Technology earlier this month was not to urge aid solely for China but for all of Asia.

Under Stassen's program, the United States would assist:

1. "In improving transportation in China and Burma."
2. "In extending engineering aid to the hydroelectric and reclamation developments on the rivers of India."

3. "In reconstruction in the Philippines."
4. "In coordination with the recovery of Japan."

"Some means for the exchange of goods between these countries, with their extremely deflated currency problems, should be established," Stassen said.

Questions and Answers

Q—Is water a food?

A—According to biochemists, water is a food, even though it does not supply energy as do carbohydrates, fats and proteins. Food is considered as including all materials required for growth and repair of body tissues, and water is certainly one of them.

Q—What is the difference between a passport and a visa?

A—A passport is a document issued by the government of a country to its citizens permitting him to travel abroad.

moled travel abroad; a visa is an endorsement made on a passport by the government of a foreign country, denoting that it has been examined, and that the bearer may enter that country.

Inez Robb Combines Trio Of Columnists' Privileges

By INEZ ROBB

NEW YORK, April 21—(INS)—By an unwritten convention in the columning racket, every practitioner is annually allowed one column on a subject, one on poison ivy and one on seed catalogues.

Today is bargain day in this department, with a column devoted to all three, with which I have been retired to my cot for some days past.

How did I acquire all three at once? Don't ask! Just admit I got talent and let it go at that. I have a talent for poison ivy like some people have for cooking or painting or flag-pole sitting.

Most people have to wait till the stuff starts to grow late in the spring. But not me. I just walk across a lifeless, brown field where the stuff grew last year, and there is a glad resurgence of the weed: Poison ivy's back and I've got it.

I am proud to announce that mine is the first recorded case of poison ivy in these parts as of 1949. If my case history holds, I will also have the last recorded case as of 1949.

Ab, this has been a busy time in this happy household, with people rushing to and fro to keep my ankles encased in soothing oil and my sinuses open with soothing vapor.

Naturally, I have not really had gripe, which is only for peasants anymore. I have had Virus X, with the usual shakes, chills, fever and—shall I say?—bilious temper.

HIRAM STUDENTS TO RUN SHOWBOAT

HIRAM—(UP)—The showboat Majestic, last of the proud floating theaters that used to bring entertainment to those living along the nation's river banks, will open its 1949 season at Point Pleasant, W. Va., April 30.

At the helm of the riverboat will be Capt. Tom J. Reynolds, a showboat pilot for 36 years. On the stage will be students from Hiram College.

The Majestic, with a seating capacity of 425, is the only traveling showboat left. Built in 1923, when there were still 14 such craft on the rivers, it has survived the depression, war usage, treacherous river ice and the growth of other forms of entertainment.

Twenty-six Hiram college students will provide the entertainment that follows the showboat tradition as closely as possible. Feature of this year's program is "The Drunkard; or The Fallen Saved," a temperance melodrama in five acts, and "John Loves Mary." In addition, there will be five vaudeville acts and a marionette show for children will be given in the afternoons.

The course the students are taking is called operating theater. It offers six hours of academic credit. There are no formal classes and no theoretical study of the drama, except as theory directly affects the practical job being done.

The showboat project is a cooperative venture. Students are not paid salaries but will share in whatever

profits there may be after all expenses are met.

By the time the season ends Oct. 1, the majestic will have stopped at almost 50 towns and cities in Indiana, Kentucky, Ohio, Pennsylvania and West Virginia.

Republic Closes Furnace

MASILLON, April 21—The Republic Steel Corp. announced an open hearth furnace was scheduled to be shut down here today because of lack of orders for alloy steel.

The shutdown would affect about 50 workers and cut the plant to 50 per cent of capacity. It was the fourth open hearth furnace to be shut down in the last month.

Ohio's Employment Figures Level Off

COLUMBUS, April 21—(UP)—Employment in Ohio declined one percent in February as compared with January, the Ohio State university bureau of business research reported today.

Compared with February a year ago, employment in the state was down four percent, data compiled on 5,690 firms showed.

Payrolls showed a two percent dip in February from January, but were up one percent over February, 1948, the business research bureau said. Pay rolls and employment in the construction trades showed the largest monthly drop, with total pay

rolls declined six percent and number of workers down five percent.

The average weekly wage in the state fluctuated less than one percent from January to February, the report showed. The February average was \$55.42 compared with \$55.56 in January. Compared with a year ago, the February average was up five percent.
